CAREER OBJECTIVE

Innovative and adaptable front-end developer committed to creating visually stunning and functional websites. A quick learner with a strong foundation in HTML, CSS, and JavaScript and JavaScript frameworks Reactjs. My best qualities include strong attention to detail, problem-solving skills, and a passion for staying updated with industry trends and the latest web technologies. I am excited to get a challenging position that encourages continuous learning, collaboration, and the opportunity to make a meaningful impact.

EXPERIENCE

Front-End Developer (React.js) | hCase2023-Present

Role : Taking on the role of a frontend developer, responsible for designing and implementing dynamic modules using React.js. Using mui/material library for designing purpose.

R&D Scientist | Piramal Discovery Solutions2022 - 2023

As an R&D Scientist at Pirmal Discovery solutions, I was responsible for conducting research and development activities to support the company's pharmaceutical Compound.
